

At Lobley Hill Primary School we aim to be the 'Best that We Can Be' through being curious, adventurous and respectful in order to achieve personal excellence.

MyMaths

MyMaths subscription Years 1 - 6

In order to support you child with home learning we have set them up with a subscription to the mymaths.co.uk website. My maths is an online programme which will be used by teachers for setting weekly homework tasks as well as home learning tasks in instances of school closures. The MyMaths portal offers children access to a range of Maths homework activities and games alongside supporting lessons and guidance.

Children have been given their logon information by their class teachers. If your child is having trouble logging on or needs to be given their logon information again, please contact their class teacher or the school office.

How to access MyMaths

Below is a brief guide to the MyMaths portal, for a more in-depth guide please see the MyMaths information video on the Remote Learning section of the school website.

Go to www.mymaths.co.uk and login at the top of the page with the school's username and password. On the next page your child should enter their personal username and password in the My Portal box.

If your child has been set a task by their teacher it will appear in the Homework area. There is a link to a lesson if they would like to revise the topic first and a link to the homework itself.

When your child completes both pages of the Homework task their scores will be saved to the database. Their teacher will be able to see how well they did and leave feedback. You must press the **Mark it** button on both pages to complete the task and for it to register as complete with the class teacher. If you want to save your work to complete later, you can press the **Save button**. This will save work for 2 weeks.

Once homework is complete, children can view their results in the Scores section of the website:

- If a **green trophy** appears next to a topic, they have good skills in that area.
- If a **blue rosette** appears they still have some difficulties.
- If a **purple rosette** appears they need to go back and relearn the topic.

Children can go back and repeat the lesson and the task as many times as they like, if they record a higher score this will be updated on the teacher database.

When children are working on MyMaths it is a good idea to have a pen or pencil and paper to hand so that children can make any notes, jottings or calculations which they may find helpful to complete the activity.

Having trouble accessing MyMaths?

If no links are working, it may be that you have a Pop-Up Blocker. You will need to allow MyMaths to use **pop ups** and we suggest that you add www.mymaths.co.uk to your list of trusted sites. If you are having trouble accessing content, it may be that you need to activate Flash in your browser. You can find more information on this in the technical section of MyMaths support site by clicking Help at the top of the screen after you've logged in.

If you have any questions on using MyMaths at home, please contact your child's class teacher or alternatively, visit the MyMaths support site. You can access this at any time by clicking Help at the top of the screen.
